Details from Australian Ariel Register website.

Short Journeys for Specific Purposes– V & V Group, Panorama MCC

The RTA specifies that Conditional Registration vehicles may only be ridden on public roads on Club sponsored events. As a further condition the RTA permits these vehicles to be ridden on public roads for short journeys to facilitate road testing, servicing, checking brakes, running gear etc and to take part in static displays and processions. The Club limits these testing runs to 25km from home.

Before going on one of these rides you are required to let the Secretary know by phone, email or SMS message. Remember to read and understand the Rules as set out in V&V document *PMCCVV-RegoRules*. Contact details in Drip Feed newsletter.

Those using the Log Book System are free to ride their machines on 60 days of the year as well as any scheduled club rides or rallies.
